

# **SPECIAL EDUCATIONAL NEEDS**

Christ's College Finchley operates an open enrolment policy although wheelchair access within the school is limited due to the design of the building.

The Curriculum Support Department takes overall responsibility for pupils with any kind of disability or learning difficulty. Individual pupils' needs are assessed and provision is made to enable them to take a full and active part in the curriculum. There are good contacts with outside agencies, and parents are encouraged to discuss their child's needs. Classroom assistant support may be available and equipment or resources adapted where necessary.

Special arrangements for SEN pupils are made during examinations, including extra time, use of a computer or reader and enlarged papers.
